

KENDALL TO OPEN SEPTEMBER TENTH

Students Warned to Rush Applications for New Quarters.

"THE KENDALLITE" OUT

Phillips' Official Paper Pays Tribute to New Kendall Faculty Director.

Students wishing to reside in Kendall lodge, the girls' dormitory, or Robertson hall, the boys' dormitory, at Kendall college are requested to rush their reservation applications, in the semi-monthly copy of "The Kendallite," mailed out over the state yesterday. According to the calendar for 1920-21 published in the bulletin, entrance examinations are to be held on September 7 and 8, registration for the first semester September 9, and the opening exercises September 10.

It is also stated in the bulletin that the new Harvard gymnasium will open with the school year on September 10. Apparatus is now being installed under the direction of Francis C. Schmidt, athletic director.

One section of "The Kendallite" is devoted to the present whereabouts and activities of members of the college faculty.

The visit of Dr. J. M. Gordon, president of Kendall, to Phillips university at Enid, was described as follows by "The Kendallite," the official paper at Phillips:

"The new president of Kendall college, Tulsa, Okla., spoke to the student body of Phillips university, Friday, July 2. Phillips sees in the new head, one who will be a power to her old rival at Tulsa. Doctor Gordon was formerly president of Trinity university, in Texas, and later occupied the same position at Southeastern Normal at Ada, Okla. He comes to Kendall succeeding the efficient administration of Doctor Odell, who on account of the health of Mrs. Odell, has taken up his residence as a pastor, in Phoenix, Ariz. "Among the subjects mentioned by the doctor were the relations between Phillips and Kendall in the several student activities. He gave our football boys due credit dealing with their past successful season and making special comment on our victory over Texas university. Phillips is scheduled to meet Kendall in this field of athletics on the coming Thanksgiving. The new head of Kendall does not seem so confident as to the ability of his warriors to defeat the "Haymakers" as some others who head from Tulsa. However, he assures us that the new \$100,000 gymnasium, ready for use on his campus, has not been built for nothing."

"The good fortune of Phillips in securing such men as President Perkins, of Ada, and Professor Rolly G. Sears, also of Ada, was mentioned by Doctor Gordon. If one were to judge from the president's speech he will be sure that a season of profitable relations are in store for Phillips and Kendall. To close—the chief message of Doctor Gordon was that education is to prepare men and women for the world. 'Become real men or real women,' he urged."

CAR SHORTAGE CONTINUES

Investigator For Car Shortage Was Not Appointed Yesterday.

OKLAHOMA CITY, July 16.—Appointment of a special investigator to canvass the car shortage situation in the state was not made today by the state corporation commission, owing to the fact that Art Walker, chairman, was called to Bartlesville to hear the application of the Bartlesville Water company for increased rates. He expected to make the appointment on his return. Before leaving for Bartlesville, Walker wrote letters to all railway companies operating in the state calling attention to orders of the commission regarding the movement of freight and the prompt furnishing of cars. He expected to make the survey of conditions in the eastern half of the state to ascertain if cars are being held up needlessly.

Mike Says---

It's all right to be a pusher, and while you're pushing be in earnest, but it sure does get his goat to see a man push an old rusty lawnmower that doesn't even cut clean when he could get an easy pusher and clean cutter so reasonable at the

Women of Ohio Organizing Clubs to Boost Harding

MARION, Ohio, July 16.—Ohio women are organizing a "Harding for president club," to offset the effect of a recent statement issued by the militant suffrage organization at Washington, D. C., attacking Senator Harding, the republican nominee for alleged lukewarmness in support of suffrage.

The militants will be in Marion July 22, for the Harding notification ceremonies. Alice Paul, their leader, has secured from Senator Harding an agreement to grant her a conference early in the day at which she will present a demand that Harding insist on action by Vermont or Connecticut on the suffrage amendment before the November elections. Senator Harding will discuss the suffrage issue in his acceptance speech.

In the meantime, Ohio women are backing up Senator Harding, who stated recently that the republican party is responsible for the submission of the suffrage amendment, and no matter which may be the state to finish ratification, actual accomplishment of suffrage should go to the credit of the republican party.

Mrs. C. C. Pavey, of Columbus, Ohio, is president of the Ohio organization. "The club has for its object the triumph of republican principles, believing the welfare of the country will be best served by the election of Harding and Coolidge," says Mrs. Pavey. "They represent all that is best in true Americanism and in their election we predict a solution of the many problems now confronting the country. We are going in full strength to Marion on notification day to offer our services to Senator Harding regardless of whether we vote or do not vote."

"We have brothers, fathers, husbands and others who will vote and vote for Harding and Coolidge, are what we are striving for."

Following years of experimenting, the production of the castor oil plant has reached the commercial stage in Colombia.

CLAIMS RUSSIAN EMPRESS BURNED

Former Courier Gives Details of Tragedy; Burned at Stake.

PARIS, July 16.—The Russian empress and her children were burned alive after the execution of Emperor Nicholas at Katerinburg. It is alleged in statements attributed to Alexia Dolrovtz, formerly courier to the empress, published here today. Dolrovtz said he made vain attempts to save his mistress and her children.

The empress and the children, Dolrovtz declared, were taken to a woods where a fire was made, into which the royal victims were forced. Every time they sought to get out of the flames, Dolrovtz said, they were driven back at the point of the bayonet. Tatiana, the empress' second daughter, fled from the pyre three times and eventually fell pierced through by a bayonet. The empress and Alexia, heir to the throne, clasped in close embrace, walked almost automatically into the flames and disappeared in a whirl of smoke, according to Dolrovtz.

MERCHANTS DELAY CARS

Charged That Cars Are Held on Sidings Too Long—May Place Embargo

OKLAHOMA CITY, July 16.—That city firms have kept box cars on sidings here as long as 13 days without unloading them, while these cars could be moving wheat, was the charge made today by Eugene P. Gum, chairman of the car committee of business men and state officials which is investigating the car shortage situation.

J. W. Mulhern, field worker for the interstate commerce commission, declared today he had found local firms considered it cheaper to pay the dollar a day demurrage that railroads charge when cars are not unloaded promptly, than to store the goods.

Plans are being made, Gum said, to place an embargo on shipments to such firms as do not unload their cars promptly.

CREAM PLANT CLOSED

Mrs. Sturgeon, State Health Inspector, Claims Firm Here Violated Sanitary Laws.

After a rigid inspection Friday conducted by Mrs. T. H. Sturgeon, state health inspector, and P. L. Long, city health inspector, officials of the Tulsa Ice Cream company were ordered to close their plant until compliance is made with sanitary laws of state and city which Mrs. Sturgeon states were flagrantly violated.

Mrs. Sturgeon resented in particular the condition of milk cans and pasteurization tanks. A testing system in use, she said, was not up to standard and operated in violation of the state laws. Mrs. Sturgeon also said her inspection showed

that cold water was used in washing bottles and cans where hot water is the rule. No screens were provided for the doors. New screens for the doors were ordered by Mrs. Sturgeon, also fly traps and a complete sterilization plant for bottles and cans was also ordered installed. A new pasteurization tank must be installed. The plant was ordered closed until the inspector's instructions are complied with. "They cannot reopen until they receive the sanction of the health department of the city of Tulsa," Long said.

Organize "Third Division." CHICAGO, July 16.—The Society of the Third Division was organized today at a reunion of members of the unit. Captain Harold Beacom of Chicago was elected president and Lieutenant Robert C. Sanders, Little Rock, Ark., secretary and treasurer.

Baby Girl Wins 3 First Prizes

Parents of Louisiana's "Champion Baby" raised her on Dr. Caldwell's Syrup Pepsin

THERE is always a good deal of sickness in the summer months, due to the hot weather. The heat is especially severe on babies and children, and often it interferes with their development and growth. They lose appetite, pass restless nights, suffer from indigestion, and finally constipation.

In the hot Southern States mothers give a combination of simple laxative herbs with pepsin, at the first symptom of constipation. This formula is known to druggists as Dr. Caldwell's Syrup Pepsin, and they have sold it under that name for a quarter of a century. It is now the sole medicinal reliance in thousands of families.

Little Dorothy Boylan knows what real hot weather is ten months of the year. She is the daughter of Mr. and Mrs. Harry H. Boylan, and lives at 218 North Alexander St., in New Orleans. She has won three successive first prizes as the "Grand Champion Baby of Louisiana," and her parents say the only medicine they have ever given her

is Dr. Caldwell's Syrup Pepsin. It has kept her healthy and built her up, and helped make it possible, they write, for Dorothy to be a prize-winning baby. You can obtain a bottle of Dr. Caldwell's Syrup Pepsin at any drug store. You will find it pleasant to take, and it does not gripe or weaken.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

Saturday Specials

At Vandevors

One Hour Sale, 10 to 11 a. m. Women's and Growing Girls' Shoes

Odds and ends pumps and oxfords in patent, dull kid and white canvas, some extraordinary values in this lot; your choice the pair today, at..... **\$1.95**
